

Ring Size Guide

US and EU sizes comparisons, accurate to within approximately 1/4 of a finger size.

IE/UK SIZE	APPROX US SIZE	APPROX EU SIZE
L	6	51 1/2
M	6 1/2	52 1/2
N	7	54
O	7 1/2	55 1/4
P	8	56 1/4
Q	8 1/2	57 1/2
R	8 3/4	58 1/2
S	9 1/2	60 1/4
T	9 3/4	61 1/2
U	10 1/4	62 1/2
V	10 3/4	63 3/4
W	11 1/4	65 1/4
X	11 3/4	66 1/4
Y	12 1/4	67 1/2
Z	12 3/4	68 3/4

IE/UK Ring Size Circumference & Diameter (approx)

IE/UK SIZE	Diameter (mm)	Circumference (mm)
L	16.5	51.5
M	16.8	52.7
N	17.2	54
O	17.6	55.2
P	18	56.5
Q	18.4	57.6
R	18.7	58.6
S	19.1	59.6
T	19.5	61.2
U	19.8	62.3
V	20.3	64.2
W	20.7	65.5
X	21.1	66.3
Y	21.4	67.3
Z	21.7	69

How To Find Your Ring Size

There are a number of ways to measure your ring size and we advise the following:

1. Measure your finger:

- Please measure the circumference of your chosen finger by wrapping a piece of string, thin paper or similar around your finger, marking where the ends meet, measure the distance and refer to our Conversion Table and the Circumference column.
- If the measurement of your circumference falls between two sizes, we would advise to choose the large size.

2. Measure an existing ring:

- Please measure with a ruler the inside diameter of an existing ring and with the measurement refer to our Conversion Table.
- If the measurement of the diameter falls between two sizes, we would advise to choose the larger size.

3. Visit a jeweller:

- A local jeweller should be able to measure your finger and advise you of your ring size in IE/UK Sizing and your size should be a letter.

Tips On Measuring Your Finger

Your ring should fit comfortably on your finger and still be able to swivel around but not so loose that it will easily slide over your knuckle.

Here are a few tips and tricks on the best way to find your perfect size:

- If you measure your finger and it is between two different sizes, we would advise selecting the larger size, as this will be more comfortable.
- When stacking rings please be aware that the size of your finger increases towards your knuckle so we would advise that you may need to consider wearing a size larger than you are used to.
- Temperature can affect the size of your finger. The best time of day to measure is in the evening, when your fingers are largest. Avoid measuring when you're cold, as fingers can be at half a size smaller.
- The thicker the ring, the tighter the fit, so if you choose a ring with a deep band width, you will likely need to go one size up.
